

The End Game

What to do once after the Socialist Enslavement and Death Panel Health Care Act passes this evening in the Senate.

PHASE I

- 1. Contact all your relatives and close friends that are in the Armed Forces, Police of Sheriff's Department, Fire Department, or any branch of what was once known as our Federal Government.** Be very careful when taking to any Union member unless you are real close to them. The vast majority of Union Members have sold their soul to the Socialist/Fascist Soros/Obama take over and the NOW.
Find out where they stand on this Communist/Fascist takeover of our country. This is critically important because when the Obama Nation implements martial law they will be best source of information.
- 2. Be sure you stock pile food and water.** If you are not sure what kind go to a Mormon Church they have been preparing for this for years and can tell you were to go to get the right kind of food products that have a long shelf life.
Be sure you have bottled water and good water filters. Brita Water filter is better than nothing at all. Stop drinking water from the tap immediately.
- 3. Get Survival books for your particular region of the US** you live in. Be sure you get one on Natural cures/medicine and edible plants.
- 4. Guns and ammunition as much as possible.**
- 5. Find 5 to 10 fellow Patriots, with or without immediate families, and form a Patriot Pack. This will be your immediate Mastermind group per say to increase the odds of you and your packs survival.**
- 6. Get a list of Senior citizens in your area.** If martial law is declared they have now way of getting food or water and that is by Obama design. Help as many as possible they are the most vulnerable Americans next to our children. We always keep our children close to us so they should be all right.
7. If you know any retired military officers that are against this Socialist/Fascist takeover of this great nation talk to them. **Most still have ties to active duty officers.**
- 8. Be sure that you have access to a Ham Radio.** Under Martial Law all standard communications will be terminated. Ham Radios can't be.
- 9. Just like the French Underground in WWII do not tell another Patriot Pack the names of the other Patriots in your Pack.**

"Those who expect to reap the blessings of freedom, must, like men, undergo the fatigues of supporting it." --Thomas Paine, The Crisis, No. 4, 1777
